Benefit Commerce Group Clients Receive 29 Awards from Wellness Council of Arizona

Scottsdale, AZ, December 16, 2021 – Benefit Commerce Group (BCG), an Alera Group Company, is pleased to announce that its employee benefits clients, including clients of its affiliate, Cambridge Benefit Solutions, received 29 awards presented today by the Wellness Council of Arizona at its 35th Annual Meeting & Awards event in Chandler. Several of these clients received multiple organization and individual awards.

- *BCG and Cambridge clients comprised 25% of the organizations honored at this event.*

In addition, BCG itself received an organization wellness promotion award, an Employer Resiliency Recognition award and an employee individual award for personal achievement.

The Wellness Council annually recognizes organizations and individuals statewide who have promoted worksite wellness and have achieved notable results and progress through their programs. The Wellness Council of Arizona is the leading health promotion organization in Arizona, coordinating wellness programs for employees across the state.

The Employer Resiliency Recognition award is new this year, designed to spotlight organizations that have supported not only their employees but also their employees' families and communities through this past year, going the extra mile to respond to employee and community needs.

Since 2016, clients of BCG have received more than 150 recognition awards from the Wellness Council.

2021 Client Recognition Includes 20 Organization Awards and 9 Individual Awards

“These clients have learned the importance of employee benefits and wellness programs in attracting and retaining quality workers. They have put emphasis and effort into engaging their employees and in helping employees make improvements in their health and well-being,” said Scott Wood, Managing Partner and Principal of BCG. “This year, 16 of our clients received organization awards. Our client award winners include 4 new entrants to this worksite wellness recognition program and 8 clients who received the Gold Seal award or annual renewal of this award, the highest-level recognition in the program.

“The Wellness Council of Arizona provides employers a wide range of ideas and programs, including health coaches who work with employees individually and in groups,” Wood added. “These wellness programs at work create and promote real engagement of employees in their own health and well-being and, in turn, their productivity for their employer. At BCG and Cambridge Benefit Solutions, we work closely with our clients to bring real impact and real results for employees and their families, as well as bottom line results for our client employers.”
